

ACOUSTICAL & TACK PANEL submittal data

SounDesign panels are as functional as they are good looking. Wall and Ceiling panels are available in various sizes and thicknesses, edge and corner details.

Select from a wide range of fabrics, textures, and colors to fit your decor. Panels are custom fabricated to meet your specific design requirements.

SounDesign wall panels are well suited for schools, churches, offices, gymnasiums, recording studios, and areas requiring sound control treatment or display needs.
